

### REMARKS

Applicant's remarks, below, are preceded by quotations of the related comments of the Examiner.

2. Claims 1-5, 7-13, 15-26, 28-32, 34-36 are rejected under 102(e) as being anticipated by Deo et al.

Without conceding any of the Examiner's positions, the Applicant has made the following amendments. Claims 1-24, 27, and 33 have been canceled. Claims 25-26, 29-32 and 35-36 have been amended. Claims 37-57 have been added and generally represent claims 1-24 to be dependent from claims 25 and 31.

3. Claims 27, 33 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Applicant would like to thank the Examiner for pointing out the allowable subject matter of claims 27 and 33. As originally filed, claim 27 depended from claim 25. Claim 25 has been amended to incorporate the subject matter of original claim 27, and original claim 27 has been canceled. Applicant respectfully submits that claim 25 as amended is now in condition for allowance. Claims 37-45 have been added and depend from allowable claim 25; therefore, claims 37-45 are also allowable.

As originally filed, claim 33 depended from claim 31. Claim 31 has been amended to incorporate the subject matter of original claim 33, and original claim 33 has been canceled. Applicant respectfully submits that claim 31 as amended is now in condition for allowance. Claims 46-57 have been added and depend from allowable claim 31; therefore, claims 46-57 are also allowable.

Applicant's discussion of particular positions of the Examiner does not constitute a concession with respect to any positions that are not expressly contested by the Applicant. Applicant's emphasis of particular reasons why the claims are patentable does not imply that

there are not other sufficient reasons why the claims are patentable. Applicant's amendment of the claims does not constitute a concession that the claims are not allowable in their unamended form.

In view of the foregoing remarks, Applicant respectfully submits that Claims 25 and 31, as amended, overcome the Examiner's objection and are now in condition for allowance, and all claims dependent therefrom are also in condition for allowance; therefore, notice thereof is respectfully requested.
